

SHAMLIZA
SHOWROOM & DESIGN STUDIO

What is Shamliza...

Shamliza, or stool, is the smallest piece of furniture, which is for centuries in use in almost all homes across the SEE region. It can be sat on, can be used as a stepping stool, small table, children's table and so on... The possibilities are enormous!

So, the name of our "brand" is inspired by this practical piece of furniture. Shamliza showroom and design studio is a "multi-brand" concept store of originally designed pieces and limited furniture production. We represent, promote, and showcase the best designer brands in the region who use the highest quality wood and materials from controlled forest cutting, using ancient and modern techniques for producing contemporary furniture design.

We are constantly monitoring the market and working to provide first-class product and promotion platform. We love our work, and all the selected products in our showroom are made with passion and love in regards to furniture and interiors. In addition to the designer brands our product range includes vintage and redesigned furniture.

We are very proud of the references in the field of furnishing various types of interiors. In addition to selling furniture, we also deal with interior design and provide complete services from conceptual design to realization and installation on a turnkey basis.

Let's create inspiring interiors together for the purpose of enjoying a special lifestyle full of individuality and uniqueness.
